PLENTY OF PROFIT-TAKING

Liquidation Sales Bring About a Reaction in the Market.

The Steel Issues, Atchison Common Illinois Central, and Others Weak Through the Labor and Crop Sitnations-Foreign Houses Sellers.

corded at the close of business yesterday nry. Profit taking in exceedingly heavy set in right at the opening and continued in abated force throughout the

several features of the situation now en-gasing financial interest. The advices both from the crops and the labor difficuities in various directions showed no essential alteration. The fluctuations in the grain market, and particularly in corn, were decidedly erratic, and, indeed, a rapid advance in the latter staple in the morning appeared to have a good deal of effect in bringing about the reaction in the stock market.

There was no modification of the views now commonly held that the striking steel workers will soon have to abandon their contentions, but on the other hand the absence of any indications of an early surrender militated against a renewal of yesterday a fise in stock market prices. From a merely speculative point of view also vesterday afternoon's late announcement respecting the composition of the Northern Pacific board of directors, with all of its vast significance, was adjudged to mark the culmination of the movement based upon that development and wan utilized to realize accrued profits upon the opening of business. It is obvious how that the Industry of transportation west of the Mississippi River has passed under a community of interest equal to or greater than that prevailing in the railway systems of the country north of the Ohlo and Potomac Rivers.

Notwithstanding the varying and somewhat irregular movements in prices during the course of the business session, the concentration of interest in St. Paul, Union Pacific and Southern Pacific reflected a general appreciation of this fact. The lingering apprehensions respecting the outlook for the corn crop led to quite marked weakness in Atchison common and to the sharp reactions which appeared in lilinois Central, Missouri Pacific, and other stocks more directly concerned. London's attitude was somewhat disappointing, inasmach as only irregular price charges in American stocks were furnished from that quarter and on balance foreign houses were sellers here to the extent of some Econo charges in that Allers of stocks. There was no medification of the views

foreign houses were sel extent of some 25,000 cha	ires of	stock	the

The effect of the announcement of the community of interests plan on the stock

market was all that could have been expected, and a little more. Prices advanced sharply on Wednesday aftermoon, and closed at the top notch. They becomed again yesterday, and at the close many scarrities were from 5-to 10 points above the tevel of Wednesday morning. St. Paul and Union Pacific, especially, were buoyant in the extreme, while many other securities of companies less affected by the community of interest news were soaring in a most encouraging way. The general list was strong all day. The news of this deal is indoubtedly of the utmost importange, and no surprise should be felt that under He influence the street should disregard, for a time at least, the fact that the drought in the West and the steel strike are still dismal factors in the situation. It is probable that the amountement of this news was the turning point in the market, and that the levest prices of the summer have been reached. The probabilities are that the gradual tendency of prices in the future will be apward, and that stocks bought on the decidnes will showever, by care-

Caution is advised, however, by careful people. The market is of such a nature that fluctuations of importance are more than likely. The crop news is undoubtedly bad. Dispatches yesterday reported rains in many localities, but not such a big downpour as could be said to end the drought. The cron crop will be cartailed in many localities. It may not be 1,500,000 bushels all told. The strike news, too, is not encouraging as far as any outlook for an early settlement is concerned. These matters are likely to prevent any runaway bull market for the present, and they may cause a sharp reaction in prices at any time. Money conditions are satisfactory. The bank statement this week will make a good showing, it is said. The Bank of England did not advance its rate yesterday, and exchange rates are satisfactory. Call money was easy yesterday. It is entirely probable that money will be easy for a mouth to come, and that if the insiders wish to make a bull market between now and August 15, they will not be hampered by money conditions.

and August 15, they will not be hampered by money conditions.

The latest gossip regarding the community of interest plan is that it contemplates the early declaration of dividends on securities that have not been dividend puyers, as far as possible, and the advance of the dividend rate on other securities. It is said that this method will be adopted for the purpose of making the plan as important as possible in the eyes of the public, and to give the entire Western railway situation a most prosperous appearance. The Eurlington dividend has been railway situation a most prosperous appearance. The Eurlington dividend dut, when many people would not have considered such a dividend warranted by the earnings of the company. The Missouri Pacific and an advance of the dividend rate on the St. Paul to 7 or 8 per cent. Thore is even talk of a dividend for Southern Pacific. This plan of declaring dividends wherever possible will, it is thought, induce the public to buy these securities at the best possible prices, and, of course, it is this can that the insiders have in view as the ultimate result of their operations. However much this may be true in a general way, it is probable that too much attention should not be paid to a in particular cases. There is no probability that there will be any dividend for the Southern Pacific at present, despite the fine earnings of the company. Some people are inclined to doubt very much if the St. Paul rate will be advanced to 7 per cent. For the present, it may be assumed that Mr. Morgan and his friends will think most of making a good showing of earnings for the companies, of perfecting the community of interest plan practically. They will declare dividends when they are earned and when the actual business of the companies warrants them. The outlook for their plan in this real and substantial way is certainly exceptional.

The next development in the big harmony plan is likely to be the announcement of the Greater Missouri Pacific consolidation. This plan has been under consideration for some time and it is understood that it has been formulated to the satisfaction of the various interests involved. Its announcement will logically follow that of the adjustment of affairs in the Northwest. One of the tips yesterday was that the Goulds and the Rockefellers would make an announcement this week or early next week. It is thought likely, however, that a formal announcement may be postponed for policy's sake for fear that such a buil item of news may be needed more in the market later to offset bad crop or strike news. At the same time some of the best informed people are buying the Southwestern securities in the expectation of an early good advance in prices. It may be suggested that a number of these securities look fairly attractive on the basis of earnings and dividends, or dividend prospects alone, at the present time. Missouri Pacific does not seem to be selling at too high a level. The St Louis Southwestern securities look cheap. The Missouri Kansas and Texas stocks represent a property that has been making a fine showing during the past year and they cannot be said to be seiding at exorbitant rates.

There is much bullish talk regarding Union Pacific. The rumor of a 5 per cent dividend is beard repeatedly and it is said on good authority that the lasiders have been buying the stock during the past two days heavily. The earnings of the company have been entirely satisfactory and the price level does not look too high even after the big bulge yesterday. As to the dividend, nothing official is said, however.

The declaration of a dividend of 1½ per cent on Eric first preferred stock was one of the most important pieces of news yesterday. The news was received differently by different people. It was polated out by the bears that there has been talk of a i per cent rate, and further that even the 3 per cent rate is not made annual, no atipulation as to a regular disbursement being made. The bulls on the Eric securities were content with the fact that a dividend has been declared on a stock that has not received a dividend before. There has been some gossip of a 4 per cent rate and it is possible that the larger disbursement would have been declared if it had not been for the strike of the mine engineers at this time. Whatever the rate may be, the company is making ed if that not been for the strike of the mine engineers at this time. Whatever the rate may be, the company is making a fire showing of earnings and the money will not be lost. Friends of the company state that the outlook for the preferred and for the other securities is excellent. They him that the Morgan-Hill plans contemplate excellent things for the company, aside from what has been disclosed up to the present time. One story recently much heard is of the retirement of the small amount of second preferred stock.

There was a tip yesterday that Norfolk and Western and Chesapeake and Ohio are likely to have a good further advance in the immediate future.

Sugar was advanced to a new high price yesterday and the friends of the stock talk confidently of the outlook for a further advance.

The Steel securities were dealt in heavily, but did not more over a very wide range of prices. They are being supported stardily by the inviders and it is not probable that they will be allowed to go much, if any, lower. On the other hand, if the general market is good it is fairly probable that they will be advanced. Mr. Keene's contract with the insiders undoubtedly calls for better prices for the stocks than those ruling at present.

The New York Curb Market. NEW YORK, July 18.—The outside market was strong and active, with busines

generally at materially higher prices. generally at materially higher prices. A feature of the trading was the buying of Bank of Commerce stocks by E. S. Mendels, Jr. & Co., starting at 280 and advancing to 287 on fairly large transactions. The stock sold a few days ago at 150.

New York Transportation was traded in at 12%, an advance of I point. Gilbert & Lewis sold and J. L. McCormick was the buyer.

buyer.

American Can was strong, with sale at 22% to 22%. The preferred sold at 71%. Tobacco 48 were fractionally higher early, selling at 66, but later reacted to 55% The principal buyers were Allan, Wood 2 McGraw and Bunnell & Buchanan.

McGraw and Bunnell & Buchanan.
Tennessee Copper sold at 18.
Union Copper was firm and & higher, with sales at 5½ and 5½.
Camden Land sold at 1½ and 1½.
Royal Baking Powder preferred sold at 98.
Consolidated Equipment and Refrigerating was bought by F. M. Lockwood & Co. at 7, an advance of ½ over recent offers. St. Louis Transit sold at 26%. St. Louis Transit sold at 26%. Seaboards were all steady, the common selling at 27%, the preferred at 48, and the Enited States Duck sold at 32%.
United States Duck sold at 32%.
International Umbreila ranged from 3%

THE MARKETS OF EUROPE. Stocks Somewhat Stronger on the

Recovery in Americans. LONDON, July 18.-The steek market oday was rather more cheerful on the sharp recovery of American shares which came strong oversight. They were strong overnight. bought by London, which is rather short. The market eased off about noon on liqui-dation in consequence of two small fallores. They finished buoyant, however, on New York's hearty support. Chicago, on New York's hearty support. Chicago.
Milwaukee and St. Louis ied, but London
did little. Chesapeake and Ohio was pattonized on the "Times" cable desputch
that Pennsylvania will guarantee a 3 percent dividend, but in the best informed
quarters the report is discredited.
The market has repaid the Bank of England £1,50,000.
Berlin exchange is 29.41.

THE CHICAGO GRAIN MARKET. Corn Advances on Buying for Local Professionals. CHICAGO, July 18,-Wheat was dull and

lower for the greater part of the session. The weakness in corn early and the fail-ure of Liverpool to hold its advance were the factors. There was less approhension over the Northwestern situation, owing to cooler temperature and showers. Local buils parted with their purchases of year-terday and the bears sold freely. In the last hour there was a good rully on the strength in coarse grains and the improved export demand, the seaboard reporting 50 loads. Liverpool closed unchanged to lighter, Paris &c lower, Antwerp 14cc higher. the factors. There was less apprehension

so loads. Liverpool closed unchanged to ad higher. Paris &c lower, Antwerp like higher.

Corn started off weak on the rains in Kansas and Missouri, but quickly firmed and advanced steadily on buying for local professionals, who believe that the rains have been discounted. They found offerings light owing to the late liquidation. Advices from lowa and Nebraska were that considerable damage had already been done and that rain is badly needed. In fact, these reports were the principal influence in today's market, and there was fair outside buying on them. The cash demand continues slow here, although higher prices are being paid in the country for the cash article by feeders.

Cats were active and strong. They opened slightly lower in sympathy with corn and wheat, but immediately turned and advanced steadily all day under good general buying. A feature of the trade is the continued large buying by local professionals of the May delivery. There was another sale of \$5.00 bushels cash to go to the Southwest.

Provisions made another advance. There was a fair investment demand for October and January pork. The market closed firm and has a strong undertone. Influential packers are working for a built turn on nearby deliveries.

THE INGLEYS SENTENCED.

Last Scene Enacted in the Street Car

Ticket Swindle. Probably the last incident in connection with the robbery of the Washington Traction Company by the substitution of forged railway tickets was enacted yes-terday, when Frederick D. H. Ingley and Samuel Ingley were sentenced to confine-ment in the penitentiary for terms of two years and four months and three years and six months, respectively. The In-gleys were indicted some time ago by the grand jury and charged with forgery and the issuing of forged railway tickets.

When arraigned in Criminal Court No. 1 yesterday, before Justice Bradley, they both pleaded guilty to the indictments. When the prisoners stood at the bar awaiting sentence, Justice Bradley stated that he knew Frederick H. D. Ingley as a street car conductor and was surprised that he should have gotten into the difficulty. He stated that he believed that Ingley stood well in the estimation of the

Ingley stood well in the estimation of the officials and patrons of the road. The court expressed the hope that when the defendants completed their sentences they would lead upright lives.

There were fourteen counts to the indictment, each setting forth the charge of forgery and utterance of forged counterfelt tickets. Edward G. Niles appeared as counsel for the Ingleys and moved the court to be lenient with his clients, setting forth their previous good character, Jesse Atkins, Assistant District Attorney, recommended to Justice Bradley that Frederick D. H. Ingley be sentenced to the penitentiary for two years and four months and Samuel Ingley for three years and six months. This sentence was recommended because of the previous good character of the men, and was so ordered by the court.

The plat to set the commany has been

ohmerater of the men, and was so ordered by the court.

The plot to rob the company has been told in The Times. On May 31 the defendants were arrested by Detectives Browne and Lacz. Samuel Ingley lived at Hyattsville. Md., where he had a farm. The detectives went there and found upon the parmises some 28,000 tickets. Both of the defendants broke down and confessed.

They were given a hearing in the Police Court on Jane 1, and through their attorney. Edward G Niles, waived a hearing and were held by Judge Kimball in \$5.00 bail for the grand jury. On June 19 Justice Anderson reduced the ball on application of the defendants attorney to \$3.500 each. They were unable to furnish the ball and have been in jail ever since. Both the defendants are Englishmen. The traction company sent Detective Erowne to Europe and be secured all the The traction company sent Detective Browns to Europe, and he secured all the plates from which the engravings were made, and they are now in the possession of the local police.

The Ingleys will probably he sent to the penticutary at Moundsville, W. Vn., within a few days, to serve their sentences.

TO VACATE AN APPOINTMENT. The Care of the Reidel Children In

volved in a Petition. Carlton B. Hazard yesterday filed a pe-tition in the Probate Court asking that the appointment of Mrs. Margaret K. Atherton as the guardian of Ciara Atherron Reidel and Gladys F. Reidel be vacated. The children named are those of Mrs. Clara Reidel, who some time ago left

he look after and care for her children, as she intended to leave the city. She requested him to act as her agent and to receive remittances to be expended in the care of the children. Mrs. Reidei left the city about June 1 last. Mr. Hazard also states that the children are at Fairfax, Va., and that on June 14 their grandmother, Mrs. Margaret K. Atherton, petitioned the court to be appointed their guardian. The appointment was theremon made.

ditioned the court to be appointed their guardian. The appointment was thereupon made.

Mr. Hazard denies that Mrs. Atherton is the acarest living relative of the children, stating that their mother is. He further denies that the children are in the District or that he has any money belonging to them. The matter will come up for consideration in the Probate Court in a few days.

Mrs. Reidel was farmerly employed as a clerk in the military information division of the War Department, and on Saturday, June 9 hast, left the city. William Morey, who was also employed as a clerk in the same bureau, disappeared at the same time. Mrs. Reidel is a dafighter of the late Gibson Atherion, formerly a Representative in Congress from Ohio. Until shortly before leaving the city she owned a valuable property in Virginia, called "Dangerfield." A few days before she left Washington it is said she transferred this property to C. B. Hazard, and received alsoit \$2000 in cash, which she took with her when she left.

Morey lived at Kensington, Md., with his wife and five children. He is an East Indian by descent, and it is stated that both he and Mrs. Reddel are unattractive persons.

Some weeks ago a woman living in this

persons.

Some weeks ago a woman living in this city announced that she had received a letter from the missing Mrs. Reidel, in which the latter said, it is claimed, that she was in Canada with Morey, and would, of course, never return.

THE HENDRICK WILL FILED. The Widow Named as Executrix

Without Bond. The will of David S. Hendrick, dated June 22, 1900, was filed yesterday for prohate. By its terms the testator bequenths his entire estate to his wife, Pattle W. Hendrick, who is named executrix without

The document was offered to the Register of Wills by John Thilman, who states in an affidavit that upon the execution of the will it was sealed and entrusted to his care, with instructions that upon the his care, with instructions that upon the death of the testator the document should be delivered to his wife, Pattie W. Hendrick. It is further stated that David S. Hendrick died on July 14, and the will was delivered to his wife as directed. Mrs. Hendrick also filed a petition asking that the will be admitted for probate.

CURE OF BLOOD

There was a time when there was no cure for Blood Diseases.

Those who had them lived in a veritable tomb of despair, waiting for the end. Then came a practice which was not very satisfactory. It assumed that certain drugs were positive specifics, but that every Blood Disease would run its course. There were certain stages through which each must pass, and nothing would prevent that.

Finally most of the doctors came to the conclusion that the infectious ones could be cured in from 24 to 28 months. All the

TENANTS MAY REMAIN. An Owner's Application for a Ten

porary Receiver Denied. After hearing argument on the petition of Eugene Gough, for the appointment of a receiver, in his suit against Leonard Mockall and Amanda H. Mockall, Justice Bradley yesterday denied the application The appointment of a receiver was asked to take charge of the premises at the corner of Thirty-second and R street northwest.

northwest.

It is explained that the complainant purchased the property in question at a trustee's sale and received a deed in fee on June II last. On June 2s, it is stated, he attempted to take possession, but the defendants refused to surrender the premises, being advised that they could retain their occupancy for some considerable time.

On July 8 Gough instituted proceedings for ejectment against the defendants. On account of delay necessary in disposing of this litigation, Gough asked for the appointment of a receiver to take charge of the property. Lee Simmons appeared

of the property. Lee Simmons appeared as counsel for the defendants.

LOCAL ELECTRICAL STRIKE.

Indications That an Agreement Will Be Reached Today. Indications last night pointed to

cedy termination of the strike inauguapeedy termination of the struce manufarrated yesterday by the local union of electrical workers. The men, while asserting their rights positively and firmly, are inclined to act conservatively, while it is evident that the contractors are willing to make a reasonable agreement with the members of the union. It is probable that a compromise will be effected within a few days whereby the men will all return to their former positions.

The cause of the strike is the failure of the Electrical Contractors' Association to sign a contract to pay 8.59 a day for eight hours' work and to pay double rates for all overtime. It was stated last night that a number of the bosses had expressed a williagness to accede to the demands of the men with certain reservations, which it is believed will be yielded by the union, and it is thought that all of the contractors will come to the same terms, rated yesterday by the local union of
